

## Fall is on it's way!

Labour Day weekend has come and gone and the **first colored leaves** are showing up on the trees. It has become **more quiet now on the lake** but it's beautiful on the lake and in the bush.

As most of you know by now **we are operating with six cottages** instead of ten.

Last spring **all cottages** have undergone **renovations**, **two of them major** - #1 and #11.

**Cottage #1** now sleeps 8 people and has 1 ½ bathrooms.

The **boat launch** is **all new** as well so for those of you who bring their own boat it is much easier to launch.

**We are very excited about everything that is new and like to show it off!**

### ATTENTION FISHERMEN AND HUNTERS!
